2025: A LANDMARK YEAR OF GROWTH AND MEDALS FOR LEBANESE HOCKEY

The year 2025 was rich in activity and accomplishments for the Lebanese Ice Hockey Federation.

First, the men's team participated in the Challenger Series. This series was co-created in collaboration with three other hockey federations (Jamaican, Greek, and Puerto Rican), all members of the IIHF. The goal of the series is to provide a platform for nations that do not yet meet all the prerequisites to compete in official IIHF tournaments to showcase their talent and compete on an international scale. The event is divided into two parts: one in Chicago and one in Montreal.

This year, for the second consecutive year, Lebanon participated and reached the Final. Despite a close final and a spectacular show, Lebanon was defeated, securing second place in the series standings behind Greece, with an overall record of 4 wins and 3 losses (all three losses coming against Greece, including the final).

Furthermore, we sent several players to participate in the very first edition of the 3x3 tournament in Kazan, Russia. The format is not traditional hockey, but it is likely to gain popularity in the coming years. This tournament, hosted by the Association for the Development of Ice Hockey in the Islamic Countries (ADIHIC), was spectacular and a total success. Lebanon lost in a heart-breaking semi-final match but still managed to emerge with the Bronze medal in Division A (the strongest division).

On the women's side, our national team participated for the very first time in the Dream Nation Cup in New Jersey. This tournament, which is gaining popularity and is run by an extraordinary organization, shows great promise for the future. Lebanon was defeated in the semi-finals by the Caribbean team and then won the consolation match against Puerto Rico to finish with a Bronze medal.

This is a summary of our activities for 2025. Stay tuned for 2026, as we plan to participate in more international competitions, including an international championship in Qatar next February and the introduction of a women's division for the Challenger Series.
